Dear Parents:

This letter is to inform you we have had Conjunctivitis (pink eye) reported in your child's classroom. Please remind your child to wash their hands frequently during the day and as soon as they arrive home after school. We will be reminding the children here as well.

Please take your child to the doctor if he/she complains of an itchy or watery pink eye with or without discharge. Consult your physician if your child wakes up with crust on the eyelashes and cannot open the eye. If eye drops are prescribed, the child may return to school after a **FULL 24 hours of medication** has been given. If the doctor does not feel it is Conjunctivitis obtain a note from the doctor stating the child is not contagious.

Thank you for your cooperation. Please feel free to contact me if you have any questions or concerns regarding the above matter.

Sincerely,

Jerilyn Mullen, R.N.
